Summary

Full-stack software engineer with 2+ years of experience delivering production web applications in a startup consultancy environment. Specialized in React, Next.js, TypeScript, and Azure-based architectures. Known for executing against defined system designs, rapidly learning new platforms, and shipping reliable, scalable solutions while collaborating closely with clients, designers, and distributed engineering teams.

Technical Skills

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SSR, SEO Optimization

Backend: Node.js, Express, REST APIs, Azure Functions

Cloud: Microsoft Azure, Azure App Services, Azure Static Web Apps, Azure SQL, CI/CD

CMS & Platforms: Contentful, Strapi, HubSpot CMS, Shopify

Tools: Git, GitHub, Postman, VS Code, Figma, Google Analytics

Experience

MOOD — Technology Consultancy (Startup)

Senior Analyst (Software / Data)

2023 – Present

- Developed and deployed full-stack web applications using React, Next.js, TypeScript, Node.js, and Azure.
- Executed against predefined requirements and system designs, contributing implementation-level discovery and architectural recommendations when blockers arose.
- Built SSR-enabled Next.js applications to improve SEO, performance, and content scalability.
- Implemented REST APIs and Azure Functions to support real-time calculations, integrations, and dynamic content delivery.
- Participated in PR reviews, production deployments, and environment configuration while working closely with the CTO.
- Collaborated directly with clients in group meetings for technical clarification, demos, and delivery updates.

- Worked alongside offshore development teams to deliver complex projects under aggressive timelines.
-

Selected Projects

Virgin Bay Mortgage — Headless Website Platform

- Built a Next.js + React website using Contentful headless CMS and TypeScript. - Implemented server-side rendering for SEO and performance. - Deployed via Azure Static Web Apps, enabling rapid content updates by non-technical teams.

Virgin Bay Mortgage — Property Valuation Widget

- Developed a proprietary valuation engine analyzing 14+ variables to generate a 0–100 investment score. - Delivered as a reusable React widget embedded within a WordPress site. - Integrated multiple external REST APIs and Contentful CMS.

Precision Garage Door Service — SEO Marketing Platform

- Built dynamic Next.js landing pages driven by Google Ads parameters to personalize content. - Improved SEO performance and conversion rates through SSR and analytics integration.

Live Cell Algae Group — Rebrand & E-Commerce

- Contributed to a 22-page HubSpot CMS rebuild and Shopify integration delivered in under 30 days. - Coordinated with offshore teams to meet launch deadlines.

Education & Certification

Microsoft Certified: Azure Developer Associate

Full-Stack Web Development Certificate

University of North Carolina at Chapel Hill

Strengths

Full-Stack Delivery • Client Collaboration • Startup Execution • Rapid Learner • Systems Thinking
